

TATTOO AFTERCARE

1. LEAVE YOUR "2ND SKIN" (TATTOO PLASTER): IF POSSIBLE **3-5 DAYS** ON YOUR FRESH TATTOO. BECAUSE THE FILM IS BREATHABLE BUT ITS WATER PERMABLE, YOU CAN (CAUTIONARY!) TAKE A SHOWER, THEN JUST DAB DRY AFTERWARDS.
2. BEFORE YOU GET IN DIRECT CONTACT WITH YOUR TATTOO, REMEMBER ALWAYS **CLEAN YOUR HANDS** THOROUGHLY TO WASH!
3. AFTER 3-5 DAYS YOU CAN **REMOVE YOUR TATTOO PLASTER** CAREFULLY UNDER LUKEWARM RUNNING WATER. DO NOT ATTACH A NEW ONE. (ADHESIVE RESIDUE WILL REMOVE ITSELF)
4. **GENTLY WASH YOUR TATTOO** WITH COOL WATER AND IF AVAILABLE, WITH PH-NEUTRAL SOAP. (DO NOT USE WASH-CLOTHS, ETC.!!)
5. IDEALLY, **TAB YOUR TATTOO** VERY CAREFULLY AND GENTLY WITH FRESH HOUSEHOLD PAPER UNTIL IT IS **DRY**.
6. FROM NOW ON, **LIGHTLY CREAM YOUR TATTOO 3-4 TIMES EVERY DAY**. WE RECOMMEND USING TATTOO CARE CREAM. (AVAILABLE AT TATTOO STUDIO)
7. **THE HEALING PROCESS** TAKES APPROXIMATELY **2-4 WEEKS**. REPEAT **POINTS 2./4./5./6.**, UNTIL YOUR TATTOO IS COMPLETELY HEALED.

*IF YOUR FILM (TATTOO PLASTER) DISSOLVES PREMATURELY, REMOVE THE FILM AS DESCRIBED **IN POINT 3**. THEN FOLLOW **POINTS 2./4./5./6.** UNTIL YOUR TATTOO IS COMPLETELY HEALED.

DURING THE HEALING PROCESS, AVOID THE FOLLOWING POINTS ON YOUR TATTOO:

- PULLING/SCRATCHING OR SIMILAR
- THE SEA, SWIMMING POOLS, SAUNAS, WHIRLPOOLS ETC.
- LONG SHOWERS
- DIRECT SUN / SOLARIUM
- PERFUMED SHOWER PRODUCTS
- TIGHT-FITTING CLOTHING
- SPORTS ← DEPENDING ON TATTOO PLACEMENT
